Service Centers

A major profit opportunity for Supermarkets

The Service Center concept, pioneered by Philip Morris U.S.A., has been put into practice - profitable practice - by Supermarket Operators all across the country.

Service Centers are succeeding because they fit important trends in the Industry. Service Centers offer exciting opportunities in critical areas of profit, store traffic and customer relations.

A Philip Morris supplement, published in the May issue of Chain Store Age, provides an up-to-date analysis of Service Centers, and features case histories that candidly examine the concept in operation.
